

WE ARE ON DVD

On Saturday 12th December a group of 6 students and 3 film crew spent a day at Sam's place near Woodend. We were videoed in interviews, in a group session and with Sam conducting a counselling session.

The "rushes" look interesting at first viewing and now comes the task of editing them into an instructional DVD, a short version for promotion of TLC, plus short snippets to be downloadable from the website.

GRADUATE GROUPS

On Tuesday 9th February graduates of The Lux College will meet to set up personal growth groups. Each group will be conducted by a graduate (in their own area) and each graduate will get support and supervision from Sam.

THE BOOK!

The "Eight Keys to Person Centred Counselling" is a book I started 3 years ago but has been left on the back burner until recently. I am now re-editing it and we should soon have a double launch of DVD and book.
